

The ultimate solution to ice dams comes in a single system from CertainTeed.

While many manufacturers offer some products that can help in the battle against ice dams, only CertainTeed offers an integrated system of quality components designed to prevent them.

When used together, our ridge vents and vented soffits, fiber glass insulation, WinterGuard™ waterproofing shingle underlayment, and shingles create a roof that's well insulated, properly ventilated and resistant to problems caused by sun, wind, rain, snow and ice.

See how we can help you solve problems before they happen in the CertainTeed Solutions Kit. In it you'll find product information/specifications for these and other quality CertainTeed products, including the booklet "What You Should Know About Ice Dams and Your Home" that you can offer to your customers. For your Solutions Kit, call CertainTeed at: 1-800-233-8990, or complete and mail the coupon.

YES! I want to know more about the CertainTeed system. Please send me the CertainTeed Solutions Kit right away.
